

MOBILE APP QUICK START

Your studio.
In your pocket.

START HERE

app.ortz.rocks

1 Sign in to ORTZ Mobile

- Open **app.ortz.rocks** and sign in with Google, or create an email account.
- Using email? Open the confirmation message in your inbox before signing in.

2 Add the app to your home screen

iPhone

- Open the app in **Safari**.
- Tap **Share**, then **Add to Home Screen**.
- Turn on **Open as Web App** if shown, then tap **Add**.

Android

- Open the app in **Chrome**.
- Tap the **three-dot menu**.
- Choose **Install app**, or **Install and create shortcut**, then **Install**.

Tap the **ORTZ icon** on your home screen to launch the app.

One account for your phone and studio computer.

Use the **same ORTZ Mobile account** on both devices. Mobile accounts and projects are separate from the original desktop ORTZ environment.

Connect your studio.

Install on the computer running Pro Tools.

- Sign in at **app.ortz.rocks** with the same account used on your phone.
- Open **More > Pro Tools Bridge** and choose your computer below.

Windows

64-bit Intel/AMD

- Click **Download for Windows**.
- Open the downloaded **install.cmd** file.
- Approve the **administrator prompt**.
- If Windows warns about this ORTZ download, choose **More info > Run anyway**.

Mac

Intel or Apple Silicon

- Click **Download for Mac**.
- **Unzip** the downloaded file.
- Open **ORTZ Mobile Bridge Installer** and click **Install**.
- Approve the **administrator prompt**.
- If blocked, use **System Settings > Privacy & Security > Open Anyway**.

Install within 10 minutes of downloading. Pairing links work once. If a link expires, download a fresh installer from the Bridge page.

3 Link your session

- Open **Pro Tools** and load a session.
- In ORTZ, wait for **Connected** on the Bridge page.
- Open or create an ORTZ project.
- Choose **Import from Pro Tools**, select your session, then **Link**.

Optional: bring your mixes along

- Enable **Auto-upload Pro Tools bounces** in the project.
- Save WAV/MP3 bounces in the session's default **Bounced Files** folder.

Keep the studio computer **awake, online and running Pro Tools** for live updates. Your phone can connect from anywhere with internet access.
